

Enable performance insights on your newbuilding turbocharger

Turbo Insights

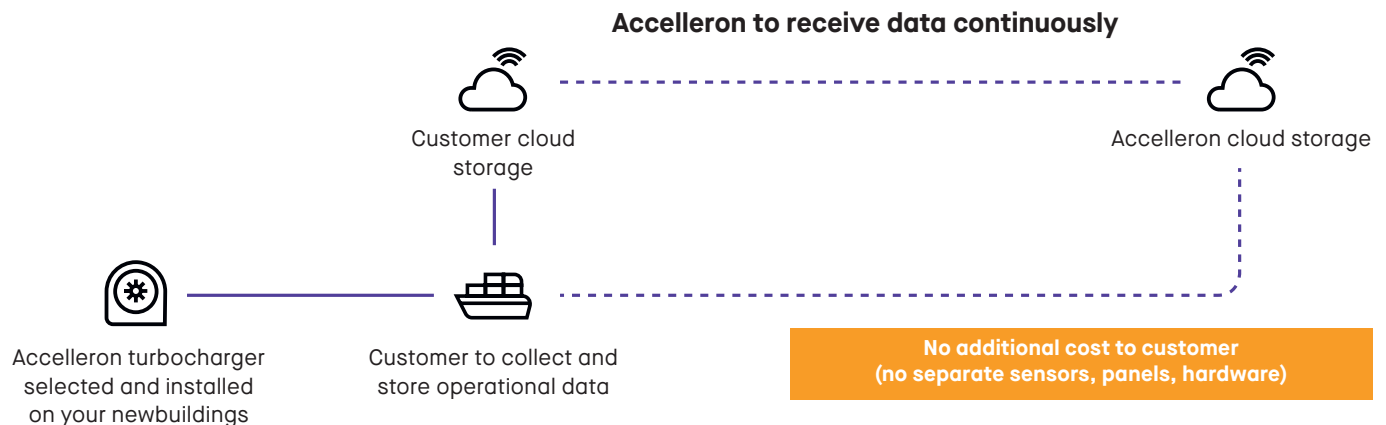

Now included as a standard feature with all newbuilding A100-L/A200-L turbochargers, Accelleron's most efficient low-speed turbochargers.

Clarity and transparency on performance with data insights.

What would we need from you?

Nothing more than receiving your operational data from engine and turbocharger.

Benefits and highlights

Available as a standard feature on all new A100-L/A200-L.

No additional hardware required.

24/7 access to customer portal.

Verify and demonstrate with data that performance is met at the end of warranty and beyond.

Identify fuel savings and CO₂ emissions reduction potential.

Benchmarking of performance over time.
